Wedneſday laſt the Biſhop of Elphin's Lady arrived here from Park Gate. And on Friday the King's Yacht that brought him, ſailed for England, having over Robert Wingfield, Eſq; whoſe fine Houſe at Power's Court is almoſt finiſhed, and allowed to be one of the grandeſt and beſt Buildings in Ireland, having the fineſt Egyptian Hall in the King's Dominions.

We hear that Dr. Cope is elected Profeſſor of Phyſick, and the Rev. Dr. Cartwright Profeſſor of Natural Philoſophy in our Univerſity, in the room of Richard Helſham, Eſq; deceaſed.

Yeſterday the Lady of Nicholas Loftus Hume, Eſq; was ſafely deliver'd of a Son at her Houſe in Dame-ſtreet.

COUNTRY NEWS.

Berwick, Sept. 16. Laſt Wedneſday Night about 12, four Perſons on Horſeback, ſuppoſed to be Smugglers, with Fire Arms and a led Horſe, went to the Caſtle-Hill to demand one Musket, a Smuggler, who lay for Tranſportation: One of them broke the Gaoler's Houſe, and call'd Musket, then went to a Window and called to his Companions; in the mean time the Key-Turner having ſecured the Door, the other three rode up to it, ſwearing they would kill every one in the Houſe, and ſhot at the Door: Upon which ſome Dragoons (who were in waiting) appearing, they took to their Heels; one of the Dragoons ſhot one of the Smugglers into the Arm, who was taken, and the other two narrowly eſcap'd; their Five Horſes were alſo taken and ſecured.

Yeſterday in the Afternoon a Man was committed to the Caſtle for Horſe-ſtealing.

The Scrutineers appointed to examine the Polls taken at the late Election of a Sheriff, have twice had a Meeting with the Right Worſhipful Robert Harvey, Eſq; Mayor, at the Hall in the Market-Place, and have gone through the Liſt of ſuch Perſons as were objected in Mr. Alderman Lovick's Poll. On Monday next they proceed on the Liſt of Perſons objected to in Mr. Alderman Black's Poll; and I hear there is great Reaſon to believe, that the ſame will be proved good in ſo clear and evident a Manner, as will give the greateſt Satisfaction to all the true Friends of the preſent Government.

N B. Fourteen Perſons who voted for Alderman Lovick, had Yeſterday at the Scrutiny the Oaths tender'd them by Mr. Mayor and Timothy Balderſton, Eſq; and they abſolutely refuſ'd to take the ſame.

Nottingham, Sept. 14. The Phœnomenon mentioned in the Papers, was ſeen at Tupton in Derbyſhire about the ſame Time; it did not come from behind a Cloud, for the Sky was quite free from Clouds, and the Sun ſhin'd very clear; it appeared like a Cone of Fire, which terminated in a ſharp Point with a bright Nucleus or Ball at its thicker End, which ſeem'd to burſt and go away in a great Flame. It was almoſt South-Eaſt, and as it appear'd North Eaſt from Dortſetſhire, therefore the Point of Interſection muſt be nearly over the City of London, which was its true Place.

Canterbury, Sept. 16. On Thurſday laſt Mr. Alderman Carter, Grocer and Tallow-chandler, was elected Mayor of this City for the Year enſuing.

The ſame Day Mr. Henry Saffory, Surgeon, was choſen a Common Council-Man.

LONDON.

Laſt Night arrived a Mail from Holland.

The Letters from Buda in Hungary, mention the Arrival of the Great Duke of Tuſcany there in his Way to the Army.

And thoſe of the 2d Inſtant O. S. from Vienna ſay, that the firſt Column of the Bavarian Troops arrived there two Days before by Water, conſiſting of two Battalions, all pick'd Men, and well equipp'd; and that the four other Battalions, and the Regiment of Dragoons of that Electorate, were expected there every Day. 'Twas given out at Vienna, that the Count de Munich, who is marching with the Ruſſian Army towards Choczim, was to detach 20 or 30,000 Men towards Tranſilvania, in order to protect that Province againſt the Inſults of the Infidels. They give us theſe farther Particulars from the Army relating to the Surrender of Orſova.

'The Grand Vizier, when he heard of the ill 'Succeſs of the Aſſault which was made the 11th of 'Auguſt O. S upon the Fort of St. Elizabeth, made 'his whole Army advance towards Orſova, in order 'to carry on the Siege with the utmoſt Vigour. He

'cauſed

caused 14 Batteries to be erected, and 'tis computed that above 20,000 Shot were fired at the Place: Nevertheless the Enemy would not have succeeded, if a French Engineer had not found Means to form a Mine under a steep Rock near St. Elizabeth's Fort, which was sprung with such Success, that Part of the Fortifications were extremely damaged. Yet for all this, the Officer who commanded there made a vigorous Defence. On the other hand, the Turks taking Advantage of the Shallowness of the Danube, wherein a large Spot of Ground was left dry, sent 4000 Janissaries over it, and prepared to make a general Storm upon the Place; and when all was ready, the Grand Vizier sent Word to Colonel Cornberg, the Commandant, that if he stay'd till the Storm, the Garison must expect no Quarter. The Commandant, who had been three Weeks afflicted with a Dysentery, was very loth at first to surrender; but being convinc'd that the Garison was but weak, the greatest Part of it having been carried off by the Scurvy, and that St. Elizabeth's Fort was lost, he consented on the 6th Instant O. S. to a Capitulation; according to which, the Garison marched out next Day with their Colours flying, Drums beating, and all the Marks of Honour, but not so much as one Piece of Cannon, in order to be conducted to the next Fortress, or to the Imperial Army.

Some Advices say, that several of the Officers refused to sign the Capitulation. Mean time the Imperial Army continues near Belgrade, and will probably stay there till they have certain Advice of the Grand Vizier's Designs, of which several Parties have been sent out to get Intelligence, but they have not been able to come at any certain Account; so that there is no Credit to be given to the various Reports of this Matter, whether he is marching, as some say, with 100,000 Men towards Belgrade; or, as others say, towards Nissa, on Account of an Insurrection at Constantinople, and that he has only sent a Part of his Army to besiege Temiswaer; the Garison of which has been reinforced, and the Sluices set open, to prevent the Place from being surpriz'd. The Velt Marshal de Wallis has taken the Command at Belgrade upon him, where there's a Garison of 6000 Men; and in case it be true that the Grand Vizier is marching towards that Place, the Imperial Army will pass the Save, and be always at hand to throw the necessary Succours into the Place.

The Letters from Petersburg of the 26th ult. O. S. say, that an Express is arrived there from the Velt Marshal de Munich, with Advice, that he continues his March along the Niester towards Choczim.

They write from Rome, that by Order of the Pope, the Congregation of the Holy Office have excommunicated Prince Joseph Ragotski, as an Abettor of the present War between the Emperor and the Infidels, and for taking Part with the latter.

They are of Opinion at Leghorn, that the late Report of Baron Theodore's having landed at Corsica is true, because their last Letters from Bastia say, that a Ship of 60 Guns, carrying a foreign Flag, came to an Anchor about the End of July last in the Road of Calliери in Corsica, which in a few Days after was join'd by 3 other Ships, one of 50, and the others of 14 Guns each, which 3 Ships were saluted by the Guns of the other Ship then at Anchor; so that 'twas inferred they had some Person of Distinction on board; and that in a few Days all those 4 Ships, after hovering at some Distance from the Island, put several Persons ashore there, of which Number 'twas supposed that Baron Theodore was one.

It is to be observed, as four Men were concerned in robbing the Bristol Mail on Wednesday Morning last, between Knightsbridge and Kensington, any one who discovers the other three of his Accomplices will be intitled, on Conviction of each Offender, to the following Rewards;

	l.	s.	d.
By the Post Master General - - -	200	00	00
His Majesty's Proclamation for robbing within 5 Miles of London	100	00	00
By Act of Parliament for apprehending of Highwaymen - -	40	00	00
	340	00	00

Upon which it appears, that any one of the Offenders who impeaches the other three, will, on all their Convictions, be intitled to One thousand and Twenty Pounds Reward. And also his Majesty's most gracious Pardon.

Yesterday Morning died, after a few Days Illness, Whitlocke Price, Esq; a Person of Eminence in the Jamaica Trade, and of a very fair Character.

Last Sunday Thomas Collyer, who keeps the Waterman's Arms at Richmond, and his Son, together with Abel Budd, and John Bone (which last was appointed by the Water Bailiff to inspect into unlawful Nets) were committed to the New Gaol in Southwark by Justice Selwyn of Richmond, for assaulting one Wells, a Fisherman, of Chiswick, and wounding him in so dangerous a Manner with a Cutlass, that his Life is despaired of: The Quarrel was occasioned by the Fisherman's refusing to deliver his Net.

Yesterday a Presentation passed the Great Seal, to enable the Rev. Mr. Bonney, M. A. to hold the Vicarage of Effingham, in the County of Surry and Diocese of Winchester, void by the Death of the last Incumbent.

Yesterday Morning a Boat going from Barns to Richmond, was overset near Mortlack, by which Accident a Gentleman was drowned; but his Servant and the two Watermen were saved by a Boat that went off to their Assistance.

Last Sunday Night the Lord Viscount Fordwich, Son and Heir Apparent to the Right Hon. the Earl Cowper, was baptized by the Name of George; his Majesty, by Proxy, and his Grace the Duke of Grafton, stood Godfathers, and her Royal Highness the Princess Amelia, by Proxy, Godmother.

Last Sunday died at his Lodgings at Highgate, Samuel Whittle, Esq; a Gentleman possessed of a plentiful Estate, and formerly High Sheriff for the County of Wilts.

Yesterday his Grace the Duke of Newcastle, one of his Majesty's Principal Secretaries of State, came to Town from his Seat at Halland in Sussex, where his Grace kept open House for three Weeks.

The same Day the Right Hon. Sir Robert Walpole, being perfectly recovered from his late Indisposition, came to his House at Chelsea from Richmond Lodge.

On Sir R——t W——'s *Recovery*

A Maz'd on Shore the trembling Owners stood,
When a rich Ship was sinking in the Flood.
Jove's aiding Arm the dusky Æther clears,
The Storm soon slacks, again their Ship appears.
Their Anguish ceases, now no more they grieve,
Their Fears disperse and they new Joys receive.
So *W*——'s dang'rous Illness being o're,
Again he glads *Britannia* as before.
His Health returning gives *Great George* delight,
And King and Country in one Joy unite.
In the Eclipse the hidden Sun we mourn'd,
But soon our Pleasure with his Beams return'd.
